

Write a java program which reads marks of five subjects through command line and print the total and average.

Marks and Average Program

1. Algorithm

Step 1: Start the program.

Step 2: Declare five integer variables s1, s2, s3, s4, s5.

Step 3: Read the five subject marks from command-line arguments using args[].

Step 4: Convert the command-line arguments from String to int using Integer.parseInt().

Step 5: Calculate the total marks using:

Total = s1 + s2 + s3 + s4 + s5

Step 6: Calculate the average using:

Average = Total / 5

Step 7: Display the total marks.

Step 8: Display the average marks.

Step 9: Stop the program.

2. Execution Steps

Step 1: Create the Java Class

Create a class named:

MarksAndAverage

and place it inside the observation package.

Step 2: Compile the Program

Compile the Java program using Eclipse or Command Prompt.

Step 3: Provide Command-Line Arguments

The program requires **five marks** as command-line arguments.

For example:

80 75 90 85 70

The values are stored in:

`args[0] = 80`

`args[1] = 75`

`args[2] = 90`

`args[3] = 85`

`args[4] = 70`

Step 4: Convert the Values

`Integer.parseInt()` converts the String arguments into integer values.

Step 5: Calculate Total

`Total = 80 + 75 + 90 + 85 + 70`

`= 400`

Step 6: Calculate Average

`Average = 400 / 5`

`= 80`

Step 7: Output

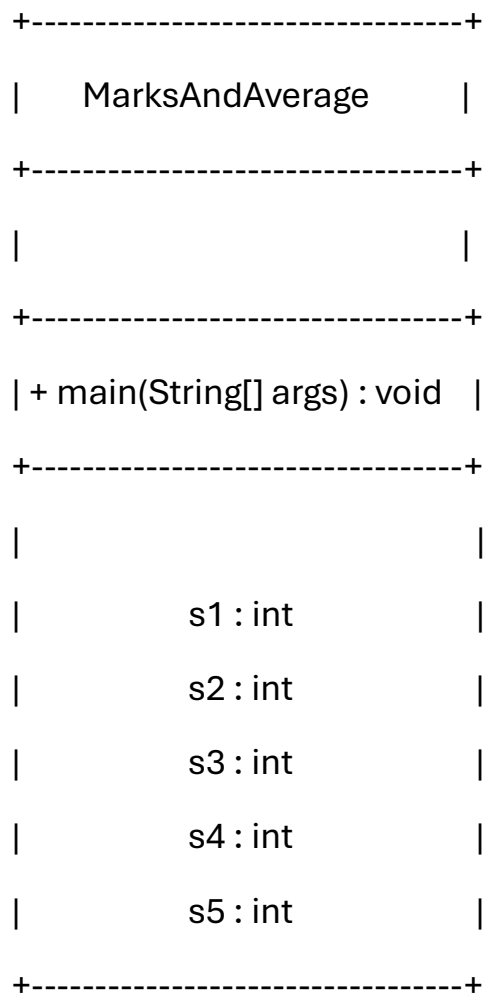

the total marks is:400

the average of he total marks is:80

Command-Line Execution

`java observation.MarksAndAverage 80 75 90 85 70`

3. UML Class Diagram

Source Code:

```
package observation;

public class MarksAndAverage {

    public static void main(String[] args) {

        int s1,s2,s3,s4,s5;

        s1=Integer.parseInt(args[0]);

        s2=Integer.parseInt(args[1]);

        s3=Integer.parseInt(args[2]);

        s4=Integer.parseInt(args[3]);

        s5=Integer.parseInt(args[4]);
```

```
System.out.println("the total marks is:"+(s1+s2+s3+s4+s5));  
System.out.println("the average of he total marks is:"+((s1+s2+s3+s4+s5)/5));  
}  
}
```

Output:

```
terminated> MarksAndAverage [Java Application] C:\Users\chinnu\OneDrive\Documents\eclipse-jee-2026-03-R-win32-x86_64\e  
the total marks is:431  
the average of he total marks is:86
```
